

I have been informed that the FCC is putting K-LOVE (91.9) station on the LPFM stations.

K-LOVE is one of the best stations Fresno has. They play music that is edifying and uplifting. Not to mention how wonderful it is not to have to worry about my children hearing something offensive.

Our family, and many other families I know only listen to K-LOVE. If we can no longer get it, we will not listen to radio. There is too much garbage out there on other stations that I don't want to listen too, or have my children listen too. It is in the best interest of our community to keep K-LOVE where it is.

Thank you,
Michele Watts
